Summary: Phanniemay 2016 Summer Shots - Each day heralds a single theme listed in the first chapter/index chapter, ranging in word count and content. Warnings by chapter. Happy fourth year running, Phanniemay!

Summer Shots

.

This fic has been posted half a month early in preparation for Phanniemay 2016. This first chapter is an index for the chapters that will be posted, totaling to 32, in which one will be posted every day of 2016 May until the 31 days are up.

Short summaries will be updated to this chapter as the shots are posted*. Shots will vary in word count and subject, and warnings/tags will be added to individual chapters and summaries.

*Summaries will be updated as the chapters are completed/in the works. Because I'm impatient and excited.

**Nothing is set in stone until it's posted so forgive my indecisiveness as the summaries will probably change a billion times.

***Some shots are loosely connected within the same universe. This will be indicated with a 'Connected to Day - ?' in the summary.

Happy Phanniemay 2016, lingering Phandom!

* * *

><p>Day 1 - Origins

*Hinted Badger Cereal

"The Origins of Phantom: Amity Park's Greatest Ghost Hero" was probably the cheesiest title the city's mayor could pick when honoring the (still secret) half-ghost hero.

OR; what Danny does with four years' worth of ghost knowledge surprises everyone.

Connected to Day 14 - Season Three

****Day 2 - Fentonworks****

_*Mentions of depression and anxiety, developmental disorders, vague hints at Sam/Danny/Tucker
>

The ingredients of making FentonWorks Inventions starts with, first and foremost, a heaping helping of the paranormal, but not a bite of foresight to be detected. How Maddie and Jack Fenton built their legacy in one big gulp (and then two tinier swallows with far bigger impacts.)

****Day 3 - Road Trip****

*Spooky scary shit, queerplatonic Badger Cereal shenanigans, kidnapping, manipulation

The Fentons learn that there are several sides to what they know to be the paranormal.

Vlad makes Midwestern Gothic so very (un)appealing.

****Day 4 - Ember****

_*Queerplatonic relationship, unrequited love
>

Ember McClain finds out what it's like to value one single voice over the masses.

Connected to Day 6 - Wes/Background Character
>Connected to Day 24 - Music<p>

****Day 5 - Dance****

*If you're a slut for ghosts bonding with Phantom this is it.

It started with a gym membership. Then it turned into yoga every Thursday at 7. He just can't say no when the enigmatic (and cute) instructor invites him to dance lessons every Friday and Saturday as well.

Then it sort of snowballs without him realizing it, and Danny has to re-evaluate what his life is once he somehow gets strong-armed by Ember into joining her gig as a background dancer.

OR; Danny is a dancer and Phantom kind of suffers for it.

****Day 6 - Wes/Background Character****

*fuk u wes

Wes is the dumbass who ends up in the Ghost Zone. Phantom is the one to come and save him. Neither of them are particularly happy about this arrangement.

Connected to Day 4 - Ember

****Day 7 - Amity Park****

*She blinded me with SCIENCE!

Why nobody outside of Amity Park seems to realize that there are ghosts everywhere.

It's quite simple, actually... If you understand String Theory.

****Day 8 - Vacation****

_*Non-binary character, bi character, polyamory, ghost shenanigans, biromantic!Jazz and model!Danny
>

The Fentons go to the beach. Awesome! Vlad is there. Less awesome.

Danny, with the power of cute clothes and love, tries to keep Vlad from seducing his parents.

****Day 9 - Water****

_*Panic attacks, flashbacks, drowning, hurt/comfort, disturbing graphic imagery
>

She's always been scared of the water. Funny and all, how she ends up dying.

OR; Phantom's duty is to protect ghosts just as much as the humans.

****Day 10 - Video Games****

_*haha holy shit, sam you have no room to talk, this is not nsfw danny isn't actually a sex worker for fucking VIDEO GAMES, it's like 'do good on ur test' or 'save x many people/ghosts today'

>

"Are you essentially _whoring yourself out_ for _video games?"_ Tucker asks him, outraged and yet incredibly impressed.

"Um," Danny considers, shrugging haplessly in response. "Yes?"

Sam nods approvingly from atop the bed.

OR; Danny has no allowance because he's a tiny delinquent, so he's desperate enough to take Vlad up on an interesting throwaway offer...

Connected to Day 1 - Origins
>Connected to Day 14 - Season Three<p>

****Day 11 - Folklore****

*Ghost shenanigans, time shenanigans

The folklore of the Ghost Zone was... interesting, to say the least.

****Day 12 - Fusion/Crossover****

_*Dude! That's my Ghost! Alert
>

Danny tells Billy to go home. Billy says something about being a 'bona fide poltergeist' and knocks over somebody's drink.

Danny is not amused.

****Day 13 - Amorpho****

*Identity issues

Danny's asleep upstairs.

Danny is downstairs playing video games with Tucker.

Danny is on patrol with Sam.

Danny is having a discussion with Jazz.

...all at once?

****Day 14 - Season Three****

_*shenanigans, Badger Cereal
>

Vlad is the mayor. The mayor has interns.

Danny goes about spooking those interns for shits and giggles. He maybe sort of convinces Vlad to adopt about ten more cats as well.

Connected to Day 1 - Origins

****Day 15 - SciFi/The Mansons****

*Mentions of torture, manipulation, abuse, death, piracy, shenanigans, gender identity, body dysphoria, mental illness, this isn't actually as serious as I'm making it sound

Subject Phantom has never questioned its existence - it simply is.

And then that entourage of do-good zany space pirates had to come and break him out of dead science jail. Frickin' warn a genderless entity of unknown origins, would'ya?

****Day 16 - Red****

*Trans character, bad binding habits, menstruation

Danny really does turn out to be just a kid with ghost powers. Phantom's body isn't any different than Danny's, color palette change and glowing green _everything_ notwithstanding.

****Day 17 - Food****

_*polyamory time, Sam/Tucker/Valerie/Danny, expect lots of pasta salad
>

The Lunch Ghost keeps trying to teach Danny how to cook so he can "woo that retched dearie" he's apparently got his eye on. Too bad Danny doesn't exactly understand which one she's talking about.

****Day 18 - Frostbite****

*Mentions of cloning, homelessness, child abuse, gender identity, trans character

Frostbite's place was just one stop on a long line of places that Dani likes to hide out in the Ghost Zone. It is, arguably, her favorite. Sure beats floating around that stuffy old Clockwork's tower any day.

Connected to Day 20 - Snow

>Connected to Day 27 - Happily Ever After<p>

****Day 19 - Favorite Outfit/Redesign****

*Gender identity, shenanigans

Danny wears Jazz's clothes, Sam wears Danny's clothes, Tucker wears Sam's clothes...

Do you see where I'm going with this?

****Day 20 - Snow****

*Weird, vague hints at cloning, sibling co-dependency, homelessness

Danny and Dani spend their weekend acting like complete hooligans and engage in the strategic buffoonery that happens to be convincing Vlad that the snowpeople were out to get him.

Connected to Day 18 - Frostbite

>Connected to Day 27 - Happily Ever After<p>

****Day 21 - Monster****

_*depression, anxiety, self-harm, suicidal tendencies, introspection

>

Surprise! Existential crisis at 3 a.m.

Boy oh boy does Danny _love_ being dead.

****Day 22 - Star****

*Trans character, this is a gay love story y'all

Star, despite what everyone says, most certainly did _not_ sign up for this in fifth grade when she first became friends with Paulina Sanchez.

OR; the super duper gay epiphany of Star and how she deals with being in love with her (assumed) straight best friend.

****Day 23 - Dragons****

*Mentions of child abuse, violence

Princess Doratheia beats the ever-loving shit out of her abusive older brother... for propriety's sake.

****Day 24 - Music****

*Halfa lore, trans character, homelessness, queerplatonic relationship, Post Traumatic Stress Disorder, this is some indie 'find urself' bullshit right here

Danny escapes from a Guys in White infested Amity Park and is sent on the run across the United States. What he didn't know was that he, as a halfa, was the only thing keeping the ghosts of Amity Park in Amity Park.

Too bad he has to find out five months later at an Ember concert all the way in bumfuck Texas.

Connected to Day 4 - Ember

****Day 25 - Accident****

*Trans characters, sibling co-dependency, gender identity, body/gender dysphoria

Dani's body was no accident. She understands this now.

****Day 26 - Summoning****

*Demonic possession, halfa lore, unsettling, body snatching, witchcraft

Danny's always had a sixth sense for when someone nearby was doing something particularly... witchy. It gets fun when he decides to start dropping in on those people.

He probably should've taken into account that his sixth sense was there for a reason.

****Day 27 - Happily Ever After****

_*Cloning, weird, unsettling, homelessness, identity issues, how does one go from broke college student to owner of a shabby boarding house

full of YOUs?, danny doesn't have the answer to that, showing up on people's doorsteps and crying about children, physically disabled character, mentally disabled character
>

Once 'the clones' realize that their 'older brother' (father?) is a pretty swell guy, they start showing up more often. Too bad this is really, really inconvenient (not to mention a level of disturbing that he's never wanted to know before) for Danny.

OR; Danny's in college and starts a weird boarding-house-esque family with his clones. All of them. Every single terrifying one.

Connected to Day 18 - Frostbite
>Connected to Day 20 - Snow<p>

****Day 28 - Reboot/Swap****

*Fourth wall breaking, huuuge dump on (Powerpuff Girls, Teen Titans GO!) and gratuitous amount of MEMES
_

You probably should've seen this coming. But, hey! At least you aren't a fourteen year old character being voiced by a forty year old man anymore!

Actually, it's worse than that.

****Day 29 - The Foleys****

*Agender character, special cameo from non-binary model!Danny
_

Tucker's mom is a chiropractor. Tucker's father is an English professor. And Tucker... just wants to design cute clothes for a living.

****Day 30 - Peace****

_*that one AU where vlad is a shitty teenager and danny is also a shitty teenager and they,,, do not, get along,,
>

How does one resist punching such an absolutely punchable face that is Vlad Masters'?

The answer is that you don't.

****Day 31 - Free Day****

*Asexuality, aromanticism, agender, autism, anxiety, aversion to touch
_

Danny's first relationship. Danny's first hand-holding. Danny's first cuddle session. Danny's first kiss. Danny's first -

Whoa there, tiger.

.

file.
